EDUCATION:

Amrutvahini College of Engineering

Bachelor of Engineering in Information Technology (CGPA:8.67)

Sangamner, MH

June 2021-June 2025

WORK HISTORY:

Web Development Intern

Sumago Infotech Pvt. Ltd.

Jan 2024 - Feb 2024

Nashik, MH

Completed an internship at SUMAGO INFOTECH, gained valuable project experience and improved problem-solving skills. Developed a 'College Marketplace' project enhancing proficiency in the MERN stack and full stack development.

PROJECTS:

Detection of Cardiovascular Diseases (Final Year Project)

Developing an advanced model for predicting Cardiovascular Diseases in ECG images at an early stage by using Machine Learning and Deep Learning methods.

College Marketplace | React, Bootstrap, HTML, CSS, Node.js, Express.js, MongoDB

The **College Marketplace** is a web-based platform designed to connect students within a college campus for the buying and selling of used educational resources. The platform aims to create a seamless, low-cost solution for students to access textbooks, study materials, notes, and other academic resources, promoting sustainability and saving money.

University Management System | Java

The **University Management System** is a robust, web-based platform designed to efficiently manage and maintain essential data related to students, teachers, and exam records at a university. This system centralizes and streamlines the administrative operations, offering an easy-to-use interface for managing academic records, facilitating quick access to student and faculty information, and generating detailed reports of student performance.

SKILLS:

- **Programming Languages:** C, C++, Java
- **Frontend Development:** HTML, CSS, Bootstrap, JavaScript
- **Backend Development:** Node.js, Express.js
- **Framework:** MERN Stack
- **Tools and Databases:** Visual Studio Code, Eclipse, IntelliJ IDEA, Git, GitHub, MySQL, MongoDB

CERTIFICATIONS:

- Certified in Java through NPTEL exam with **Silver** Medal
- Certified in C, C++, and Data Structures & Algorithms (DSA)
- Certified in "Level Up for Coding Interviews" course offered by Udemy

ACCOMPLISHMENTS:

- Led department-level projects as a **team lead**.
- Earned **600+** coding score on **GFG** platform.
- Achieved **Ninja Dominator** status on **Coding Ninja**.
- Contributed to the Refreshment Committee at the Department.

Soft Skills and Strengths:

- Adaptability
- Leadership
- Listener
- Optimism
- Problem-Solving
- Fast Learner
